

DRIFT PENDANT

When you shine a light on a sphere, it creates an oval shadow. Once this shape is repeated, the interplay of open and closed begins. The light source glows from within, catching the top edge of each opening and creating a dramatic play of light and shadow. The result is an organic shape, something that feels as if it had originated from outer space or perhaps the bottom of the ocean.

STEPHEN ANTONSON

by hand

Drift Pendant

MATERIALS

Hand sculpted plaster
Knifed plaster finish

LAMPING

2700K 17W UL Certified
LED Uplight Dimmable Engine

CERTIFICATIONS

UL / CE

DIMENSIONS

Height: 36in / 91.44cm
Diameter: 20in / 50.8cm

WEIGHT

Approx. 45 lbs / 20.41kg

CANOPY

Ø6.25in / 15.9cm

LEAD TIME

22-24 weeks

CHAIN SUSPENSION

Custom profiles available
