

HILARY CHANDELIER

A classic. Among our most popular pieces in the collection, the Hilary transcends periods, styles, and eras and has happily hung in rooms full of Royere as well as in urban modern interiors and rustic country spaces. Every cup is hand sculpted, giving each its own personality. The closer you approach the fixture, the more texture and variation you see. From afar, the Hilary's cups bring to mind King Arthur's knights gathered at the Round Table.
